Burnsbury Catering, through our two (2) trading outlets, being, 2 Smoking Barrels & Babyface Kitchen have been utilising the services of Austrain Academy for over five (5) years.

During this time, we have sent our Apprentices to Austrain Academy to undertake training in Certificate III in Commercial Cookery.

Austrain Academy is a local Registered Training Organisation providing services limited to Hospitality which makes them a specialist in this field.

We are also conversant with the background of the Chefs & Trainers in this program and are aware of the owners history in hospitality in the local area.

Austrain Academy provides regular feedback on the progress of our apprentices and is passionate about their training product.

We have regular communication from the Managing Director of Austrain Academy Mr. John Crittenden and if and when required we will have meetings to discuss a students training progress.

Please contact me if you wish to confirm the contents of this letter.
