To whom it may concern,

I have been dealing with Austrain Academy for the past 8 years as both a student and as an employer.

Austrain Academy are very professional and take pride in teaching all aspects of hospitality.

I completed my trade in Commercial Cookery with Austrain Academy and they were very professional, skilful, and helped me become the head chef I am today.

As a qualified chef I now send my apprentices to Austrain as they are very professional and helpful towards both me and my apprentices.

My apprentices have received a lot of training and learnt a lot at Austrain, all done within hours that suit the business.

I am now completing my Certificate IV with Austrain, it has been a pleasurable experience to learn all the extra knowledge I have during this course, and I will continue to learn and do courses for myself and my apprentices through Austrain.

Regards

Rebecca Finnigan
